

Forced To Be Pepper Sprayed – Not Training

Officer McLellan and his shift did not volunteer as suggested. Prior to being pepper sprayed the Officers read a statement to the Training Instructors and other Officers present. The statement read:

“I am here as directed, and will follow those orders to attend this class. Even though I am going to follow the directives given me, I believe this directive to be pepper sprayed is unreasonable and unlawful. I have not volunteered or consented to this activity, and I am being forced to participate against my will to preserve my livelihood.”
